ISO 27001:2005 – INFORMATION SECURITY MANAGEMENT SYSTEM Internal Auditor Training Programme

Introduction:

Intertek ISO 27001:2005 Internal Auditor Training Programme provides the necessary input to master all these special skills needed by an Information Security Management System Auditor as per ISO 19011 guidelines. The course is designed by involving the most modern accelerated learning techniques existing in the field of training. After successful completion of this course the delegates are competent to plan, conduct and report a first and second party Information Security Management System Audit.

Objective:

This Internal Auditor training programme empowers employees to identify any gaps that challenge the effectiveness of organisation's Information Security Management System.

The training program will also provide both technical knowledge and practical skills essential to become a competent internal auditor for Information Security Management System in line with ISO 19011:2002.
